

DOUBLING MULTIPLICATION STRATEGY WORKSHEETS

$$16 \times 3 = 8 \times 6 = 40$$

The diagram illustrates the doubling strategy for the multiplication problem $16 \times 3 = 8 \times 6 = 40$. A curved arrow labeled $\times 2$ connects the number 3 to 8, indicating that 3 is doubled to 8. Another curved arrow labeled $\div 2$ connects the number 16 to 8, indicating that 16 is halved to 8. This shows that doubling one factor and halving the other results in the same product.

$5 \times 18 =$

$3 \times 14 =$

$16 \times 50 =$

$34 \times 50 =$
